Find the right Corelan course for you:

www.corelan-training.com

Beginner
No experience, strong desire to take the time learn the basics in a proper manner

Beginner+
Little to some experience, want to refresh and improve skills

Experienced
Fully master stack based exploitation, able to write ROP chains blindfolded, ready for the next level

CORELAN LIVE — Win32 Exploit Development **FOUNDATIONS** — Instructor led

CORELAN LIVE — Win32 Exploit Development **BOOTCAMP** — Instructor led

CORELAN LIVE — Win32 Exploit Development **ADVANCED** — Instructor led

	FOUNDATIONS	BOOTCAMP	ADVANCED
System Architecture	✅	✅	
Memory Management	✅	✅	
Registers	✅	✅	
Intro to assembly	✅	✅	
Intro to Immunity Debugger	✅	✅	
Stack	✅	✅	
Saved Return Pointer overwrites	✅	✅	
Structured Exception Handling	✅	✅	
Bad Characters	✅	✅	
Limited buffers	✅		
Egg hunters	✅		
Introduction to shellcoding	✅		
Metasploit modules	✅	✅	
Unicode buffers	✅ (*)		
Bypassing ASLR		✅	
Bypassing DEP		✅	✅
Introduction to WinDBG		✅	✅
Heap Spraying		✅	✅
Intro to browser exploitation		✅ (*)	✅
Heap exploitation primitives			✅
Advanced browser exploitation			✅
Memory leaks			✅
FREE POST-CLASS SUPPORT	✅	✅	✅

stack (spans System Architecture through Bypassing DEP)

heap (spans Heap Spraying through Memory leaks)

(*) : providing there is sufficient time
